

FGH

**EQUIPMENT RENTALS &
SERVICES**

COMPANY PROFILE

Wet and Dry Vacuum Services

Wet and Dry Vacuum Trucks safely clean and recover industrial waste using high-power suction and single-mode wet/dry filtration. Standard features include a full-opening tailgate with safety props. Options: high dump and arctic models.

Hydro Blasting

FGH delivers powerful, expert hydroblasting from 100 to 1500 bar for tough industrial jobs. We prioritize safety with advanced hands-free tools. Services include surface, tube, and line cleaning.

Hazmat Cleanups

Hazardous material, or "Hazmat" cleanup, occurs when harmful biological or chemical contaminants are posing severe risks to people who are in the area of the materials.

Tank Cleaning

FGH offers expert tank cleaning for all types, including crude, wastewater, asphalt, and more. Our skilled team uses advanced tools to deliver safe, efficient, and compliant results.

Hazardous & General Waste Transport

FGH offers nationwide, EPA-compliant waste transport for all types, using a certified team and specialized fleet for safe, efficient service.

Commercial & Industrial Cleaning Services

Commercial cleaning provides tailored services like general, deep, and specialized cleaning for industries such as plants, warehouses, healthcare, mining, and manufacturing.

Commodity Transport

GH is a reliable and efficient logistics provider specializing in commodity transport. We offer tailored solutions for the safe and timely movement of bulk goods such as minerals, agricultural products, and industrial materials. With a focus on quality service and operational excellence, FGH ensures seamless transport across road, rail, and other logistics networks to meet our clients' needs

EQUIPMENT RENTALS AND SERVICES

Industrial Services personnel are experts in assisting customers in decontaminating equipment and facilities of regulated and non-regulated materials in a timely and efficient manner.

Our mobile equipment and trained personnel can handle any job, from large scale industrial Cleaning and Plant Outage Support Services to a highly technical PCB Decontamination.

Using the most advanced equipment, technologies, and well-trained workforce in the industry we complete the toughest jobs, safely, efficiently, and on budget.

Cleaning options can include hydro-blasting, chipping solids with sludge removal, chemical extraction.

OUR PURPOSE AND VISION

PURPOSE

To provide quality Equipment, services and products that exceeds the expectations of our esteemed customers

Vision

To be a leader in the rental and service industry by providing high quality equipment, services, client relationships and customer profitability

FGH Equipment Rentals & Services

OUR MISSION, CORE VALUES AND GOALS

Core Values

- We believe in treating our customers with respect.
- We grow through creativity, invention and innovation.
- We integrate honesty, integrity and business ethics into all aspects of our business functioning

Goals

- Regional expansion in the field of management and develop a strong base of key customers.
- Increase the assets and investments of the company to support the development of services.
- To build good reputation in the field of all industries and become a key player in the Industrial market.

Mission

To build long term relationships with our customers and clients and provide exceptional customer services by pursuing business through innovation and advanced technology

HEALTH, SAFETY AND THE ENVIRONMENT

HSE

MANAGEMENT OBJECTIVES

- Implementing the best safety, Quality and Environmental systems
- Recruiting competent and experienced people
- Conducting the best HSE training

- At FGH Equipment Rentals and Services, we are committed to safe, high-quality, and environmentally responsible operations.
- Our SHERQ (Safety, Health, Environment, Risk, and Quality) system is aligned with international ISO standards, ensuring full compliance and adherence to industry best practices.
- These policies are integrated into our daily operations to protect employees, clients, communities, and the environment. They cover risk assessments, incident prevention, sustainability, and quality control to ensure consistent, effective service delivery.
- All SHERQ policies and procedures are available upon request. At FGH, we aim not just to meet standards, but to exceed them—driving continuous improvement and operational excellence.

TECHNICAL ADVICE AND FAULT FINDING

- We offer dedicated technical services to our valued customers, backed by years of hands-on experience across key industries including mining, power generation, petrochemical, and steel.
- Our team brings deep industry knowledge and practical expertise to every project, ensuring reliable support, tailored solutions, and optimal performance of your operations.
- Whether it's routine maintenance, troubleshooting, or specialized technical assistance, we are committed to delivering high-quality service that meets your specific needs and exceeds expectations.
